To Whom It May Concern:

RE: WORKING RELATIONSHIP & COMPANY RELATIONS

This letter of recommendation surrounds the working relationship that has evolved working with Dave over the last 10 or so years. Dave has and continues to deliver the quality of workmanship that keeps us going back to A & B Rail. The jobs regardless of how big or small have all been accomplished with professionalism. I (Ron Edwards) will continue to rely on Dave's expertise and knowledge in the field of rail installation and maintenance. Last summer, Dave completed a lift, align and resurface to our crane gantry rails. During this two-week work scope the weather, to say the least, was not cooperative. But with good equipment, personnel and a reliable plan Dave and A&B Rail finished with favorable results.

Feel free to contact me anytime at (780) 525-8070.

Yours truly,

A handwritten signature in cursive script that reads "Ron Edwards".

Ron Edwards
Woodroom Specialist
