

To Whom It May Concern:
Re: A&B Rail.

My experiences with A&B rail have been nothing but positive. The level of service provided is exemplary. All tasks from planned out jobs to emergency work is completed with a great deal of professionalism. A&B rail, on more than one occasion, has gone above and beyond to try and repair rail in order to keep is up and running. There commitment to safety is excellent. Any safety issues have been dealt with immediately and to a satisfaction to both parties. They take great pride in the quality of work that they provide their customers. I have been more than happy with the end result in any of the work they have done for me.

I would not hesitate at all in recommending A&B rail for any projects you would need for them to do. It will be done safely, professionally, and right.
